For Manulife Global Select (MPF) Scheme Important to note:

- You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of funds, you are in doubt as to whether a certain fund is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and choose the funds most suitable for you taking into account your circumstances.
- The asset allocation of some constituent funds, referred to as "Retirement Funds", will change over time and hence the risk profile and return will also change over time. These constituent funds may not be suitable for all members. You should understand the relevant risks involved before investment and consider factors other than age and review your own investment objectives.
- The Manulife MPF Interest Fund and the Manulife MPF Stable Fund (collectively the "Guaranteed Funds") under this scheme invests solely in approved pooled investment funds in the form of insurance policies provided by Manulife (International) Limited. The guarantee is also given by Manulife (International) Limited. Your investments in the Guaranteed Funds, if any, are therefore subject to the credit risks of Manulife (International) Limited. Please refer to sections 6.2.2 and 6.2.3 of the Offering Document for details of the credit risks, guarantee features and qualifying conditions.
- Investment involves risks. Please refer to the Offering Document for details including risk factors, fees and charges of the scheme. You should not make your investment decision based on this document alone and should read the Offering Document.

Manulife Global Select (MPF) Scheme

You can choose among 27 constituent funds under the Manulife Global Select (MPF) Scheme to design an investment portfolio to suit your unique needs and risk appetites. Types of MPF constituent funds include:

The longer you stay and the more assets you maintain with us, the better privileged rates you may enjoy from us.

With the Program, you may enjoy bonus unit rebate rateⁱ of up to 0.80% p.a.ⁱⁱ for the applicable constituent funds in the personal account under Manulife Global Select (MPF) Scheme ("Manulife Personal Account") based on the level of privilege to which you belong. This Program takes into account not only the level of your Aggregated MPF Assetsⁱⁱⁱ, but also your Years of Manulife MPF Relationship^{iv} when determining the privileged rates on the management fees.

The Program's terms and conditions at the end of this leaflet apply. The bonus units allocated to a Manulife Personal Account will form part of its account value and will be subject to the relevant fees and charges applicable to the Manulife Global Select (MPF) Scheme.

- i. For details about bonus unit rebate, please refer to item 3 and item 4 of the Terms and Conditions at the end of this leaflet.
- ii. This is the maximum bonus unit rebate rate a member can get through this Program and is calculated based on the following assumption: the member is currently at level 8 of privilege applicable to his/her Manulife Personal Account and the accrued benefits are invested in the applicable constituent funds. For details, please refer to Table 2.
- iii. Aggregated MPF Assets refer to the total sum of assets held in the following sub-accounts of a member's Manulife Personal Account and/or contribution account(s) under the Manulife Global Select (MPF) Scheme ("Manulife Contribution Account"):
 - Manulife Personal Account: All sub-accounts holding the accrued benefits, and
 - Manulife Contribution Account(s) of an employee member: (1) sub-accounts holding the accrued benefits derived from employee mandatory and voluntary contributions during current employment and (2) sub-accounts holding the accrued benefits derived from former employment.
- iv. Years of Manulife MPF Relationship is determined by counting the number of consecutive completed years a member has been with Manulife up to the time of determination through maintaining an active Manulife Personal Account/Manulife Contribution Account or a multiple of them. Effective from November 1, 2012 (the "Program Launch Date"), Manulife will determine a member's Years of Manulife MPF Relationship monthly as at month end. For the avoidance of doubt, if a member does not hold any active Manulife Personal Account/Manulife Contribution Account at the time of determination, there is no Years of Manulife MPF Relationship.

Manulife Personal Account and Manulife Contribution Account are considered active if a positive balance is maintained within the respective account as per record at Manulife.

The bonus unit rebate¹ (if any) will be allocated to members' Manulife Personal Account in the immediately following month.
- vi. Manulife MPF Interest Fund is a non-unitized bond fund that provides a capital guarantee through Manulife (International) Limited. The constituent fund aims to provide members with interest each month at a rate that equals to or exceeds the prescribed savings rate published by the MPFA. The actual interest rate shall be declared by Manulife Provident Funds Trust Company Limited at its sole discretion at the recommendation of Manulife (International) Limited at the end of the month. This declared rate may not be the same as the actual returns of the constituent fund's underlying assets. Such rate will apply to all accumulations and new deposits that remain with us until the end of the month concerned. Please refer to the Offering Document for detailed features of the guarantee.
- vii. Manulife (International) Limited is the guarantor of Manulife MPF Stable Fund. Investors are provided with an interest guarantee for each month which is equal to the prescribed savings rate published by the MPFA. The guarantee is subject to 1. The successful receipt of contribution in cleared funds **before the member's 55th birthday**, and 2. Predetermined events: members must hold their investment in this constituent fund to retirement at age 65, or in case of death, or total incapacitation prior to retirement. Redemption before the occurrence of the pre-determined events is fully exposed to fluctuation in the value of the constituent fund's assets. Please refer to the Offering Document for detailed features of the quarantee.

Illustrative Examples on Privilege Entitlement under the Program

The following hypothetical examples are intended for illustrative purpose only.

Example 1

Mr. Chan has been having a Manulife Contribution Account since August 2003 and opened a new Manulife Personal Account with a successful transfer of accrued benefits from another MPF service provider on November 15, 2012:

Type of MPF Account at Manulife:	Manulife Personal Account	Manulife Contribution Account				
Status:	Active	Active				
	HK\$20,000	HK\$180,000 Breakdown of accrued benefits in the sub-account(s):				
		Current employment	Former			
Accrued Benefits as at November 30, 2012:		Employee mandatory and voluntary contributions	Employer mandatory and voluntary contributions	employment		
		HK\$100,000	HK\$80,000	HK\$0		
		Amount for calculating the Aggregated MPF Assets ⁱⁱⁱ : HK\$100,000 (= HK\$100,000 + HK\$0)				
Years of Manulife MPF Relationship ^{iv} as at November 30, 2012:	9 years Mr. Chan's Manulife Contribution Account was set up since August 2003 and has remained active till the time of determination. Therefore, his consecutive completed years with Manulife would be counted starting from August 2003, i.e. 9 years.					

For the purpose of determining the eligibility and the entitled level of privilege of Mr. Chan under the Program as at November 30, 2012:

Level of privilege applicable to his Manulife Personal Account: Aggregated MPF Level 4 Assetsiii: Years of Manulife (Mr. Chan was eligible for the MPF Relationship^{iv}: HK\$120,000 privileged rates under Level 4 for (= HK\$20,000 +9 years each applicable constituent fund HK\$100,000) in his Manulife Personal Account by way of bonus unit rebateⁱ)

Example 2^{viii}

Ms. Wong has been having a Manulife Contribution Account and a Manulife Personal Account since March 2005 and October 2009 respectively:

Type of MPF Account at Manulife:	Manulife Personal Account	Manulife Contribution Account				
Status:	Active	Active				
		HK\$250,000 Breakdown of accrued benefits in the sub-account(s):				
		Current employment	Former			
Accrued Benefits as at November 30, 2012:	HK\$60,000	Employee mandatory and voluntary and voluntary contributions contributions		employment		
		HK\$100,000	HK\$120,000	HK\$30,000		
		Amount for calculating the Aggregated MPF Assets ⁱⁱⁱ : HK\$130,000 (= HK\$100,000 + HK\$30,000)				
Years of Manulife MPF Relationship ^{iv} as at November 30, 2012:	7 years Ms. Wong's Manulife Contribution Account was set up since March 2005 and has remained active till the time of determination. Therefore, her consecutive completed years with Manulife would be counted starting from March 2005, i.e. 7 years.					

For the purpose of determining the eligibility and the entitled level of privilege of Ms. Wong under the Program as at November 30, 2012:

Aggregated MPF Assetsⁱⁱⁱ: **HK\$190,000** (= HK\$60,000 + HK\$130,000)

Years of Manulife MPF Relationship^{iv}: **7 years** Level of privilege applicable to her Manulife Personal Account:

Level 5

(Ms. Wong was eligible for the privileged rates under Level 5 for each applicable constituent fund in her Manulife Personal Account by way of bonus unit rebateⁱ)

viii. This example aims to illustrate how Manulife determines the Years of Manulife MPF Relationship^{iv} when one of the active accounts is terminated. For simplicity, it is assumed that the abovementioned accrued benefits under the Manulife Personal Account and the Manulife Contribution Account as at November 30, 2012 and December 31, 2012 were the same.

Ms. Wong then ceased her current employment. To better manage her MPF, she elected to transfer the accrued benefits of HK\$250,000 from her Manulife Contribution Account to her existing Manulife Personal Account on December 10, 2012:

Type of MPF Account at Manulife:	Manulife Personal Account	Manulife Contribution Account			
Status:	Active	Terminated			
Accrued Benefits as at December 31, 2012:	HK\$310,000 (= HK\$60,000 + HK\$250,000)	нк\$0			
Years of Manulife MPF Relationship ^{iv} as at December 31, 2012:	7 years Since Ms. Wong elected to maintain an active Manulife Personal Account, her MPF relationship with Manulife had not ceased despite the termination of her Manulife Contribution Account. We therefore continue to count her number of consecutive completed years starting from March 2005, i.e. 7 years, as her Years of Manulife MPF Relationship ^{iv} .				

For the purpose of determining the eligibility and the entitled level of privilege of Ms. Wong under the Program as at December 31, 2012:

Aggregated MPF
Assetsiii:

HK\$310,000

Years of Manulife
MPF Relationshipiv:
7 years

Level of privilege applicable to her Manulife Personal Account:

Level 6

(Ms. Wong was eligible for the privileged rates under Level 6 for each applicable constituent fund in her Manulife Personal Account by way of bonus unit rebate)

Ms. Wong's Years of Manulife MPF Relationship^{iv} would reach 8 years if her Manulife Personal Account remained active throughout the period up till March 31, 2013.

Terms and Conditions:

- 1. The Program is applicable to personal account members of Manulife Global Select (MPF) Scheme. To be entitled to a specific level of privilege under the Program sponsored by Manulife, the Aggregated MPF Assets of a Manulife Personal Account member must first fall within the designated range of the Aggregated MPF Assets as set out in Table 1; and the Years of Manulife MPF Relationship of the member must also fall within the designated range of Years of Manulife MPF Relationship as set out in Table 1. Once the above-mentioned qualifying conditions are met, the member will be entitled to the privilege rates on the management fees as set out in Table 2 under that entitled level of privilege in his/her Manulife Personal Account. Effective from the Program Launch Date, Manulife will review and determine the eligibility of members and their respective entitled level of privilege at each month end.
- 2. Current level of management fees means the current level of Management fees of the constituent funds under Manulife Global Select (MPF) Scheme as disclosed in "Fees and Charges" of the Offering Document (including subsequent addenda).
- 3. The bonus unit rebate rate ("Rebate Rate") of each applicable constituent fund is equivalent to the current level of management fees less the privileged rate on the management fees of that applicable constituent fund (as set out in Table 2). The Rebate Rate of each applicable constituent fund may differ.
- 4. The calculation of bonus unit is performed at each month end. The rebate amount for each applicable constituent fund is determined based on the monthly average value of the units of the respective constituent fund in a member's Manulife Personal Account, that is the average of the month start value and month end value of the units of the respective constituent fund in the member's Manulife Personal Account, multiplied by the applicable Rebate Rate divided by 12. The rebate amount (if any) in relation to the applicable constituent fund will be allocated correspondingly to the sub-account(s) of mandatory and/ or voluntary contributions of the member's Manulife Personal Account and will be used to purchase units of that constituent fund within the first seven business days of the immediately following month.
- 5. Each member can set up only one Manulife Personal Account. Once the member's entitled level of privilege is determined, the Rebate Rate will be applied to calculate the rebate amount and the bonus units for each applicable constituent fund in the Manulife Personal Account using the calculation methodology as set out in (3) and (4) above.
- 6. If a Manulife Personal Account is terminated prior to the monthly bonus unit allocation of the Program, it will no longer be entitled to any non-allocated bonus units.
- 7. In the event of any subsequent changes on the current level of management fees of any constituent fund(s), Manulife reserves the sole right to keep the privileged rates on the management fees (as set out in Table 2) applicable to Manulife Personal Account members unchanged. Effectively this means that the Rebate Rate of each applicable constituent fund may be adjusted to maintain the privileged rates at the same level accordingly.
- 8. The granting of the Program as stipulated in this leaflet may be changed or withdrawn by Manulife at its sole discretion upon its giving of one month's prior notice. Such notice will be sent via the customer communication channel(s) as selected by Manulife, including but not limited to newsletters and/or customer website.
- 9. In the event of any dispute as to the eligibility for and entitlement to the Program, Manulife's decision shall be final and conclusive.

Investment involves risks. Investment loss or gain may be incurred when transferring accrued benefits to/from other provider(s). Please refer to the Offering Document for details including risk factors, fees and charges of the scheme.
