

GeoBlue Traveler Health Plans and Services

Group Supplemental Medical Benefits and Services for International Business Travelers

GeoBlue group health plans combine unsurpassed service with state-of-the-art mobile technology to help business travelers conveniently access trusted doctors and hospitals all around the globe. With a large and growing **worldwide contracted community of English-speaking, western-trained physicians**, we help members get the care they need no matter where their assignments take them.

GeoBlue is a leader and innovator in serving the needs of world travelers. Rely on our expertise, experience and ability to respond with:

- A full range of **Personal Solutions** for members, including **concierge-level services and convenient online and mobile self-service tools**
- Rapid, accurate payment of provider bills and member claims in local currencies

The Strength of the Blue Brand

GeoBlue Traveler is a Blue-branded business traveler plan offered in cooperation with local Blue Cross and Blue Shield companies, which collectively cover 1 in 3 Americans. The plan offers members convenient access to the doctors and hospitals participating in the GeoBlue network outside the U.S., and for inbound travelers, the BlueCard® network in the U.S., Puerto Rico and U.S. Virgin Islands.

GeoBlue Traveler Features

- Easy-to-administer blanket coverage
- For U.S. and non-U.S. citizens traveling outside their home country on trips less than 180 consecutive days
- Rich benefits covering everything from medical evacuation to treatment for an upset stomach
- Underwritten by an A- rated U.S. carrier

To learn more, visit www.geo-blue.com.

Try out the **Destination Dashboard** to see how far GeoBlue global health and safety resources reach.

One-third of all short-term business travelers suffer an illness or injury while on an international assignment. The pace and stress of the trip often compromise the traveler's health as well as the organization's objectives.

New generation of tools to navigate through all levels of care

GeoBlue mobile tools make it easy to use online databases or downloadable applications to find a doctor or hospital, communicate your medical needs and understand the treatment plan. Start by using authoritative tools to help decide whether to seek treatment at an emergency room, schedule a doctor visit or employ remedies at home. If treatment is necessary, quickly identify the best, most convenient options using all the power of GeoBlue's global provider community, translation tools and location-based technology.

Concierge-level Services

GeoBlue delivers the highest levels of service by continually focusing on member needs and convenience. We understand how challenging it can be to find doctors you can trust when you need them most.

Arrange easy access to care with one of GeoBlue's contracted providers by requesting an appointment. Long-term relationships with doctors and hospitals mean that members can be seen quickly and do not need to file a claim and wait for reimbursement.

Global security intelligence – keep employees safe and informed

GeoBlue's unsurpassed internet resources promote personal safety by giving members convenient access to vitally important tools and news:

- Global Health and Safety news alerts published daily and delivered by email and text message
- Security Profiles for over 200 destinations outside the U.S.
